Top Skills

Product Design
Claude Code
AI-Assisted Development

Certifications

Full Stack Dev MasterClass
Programming for Everybody (Getting
Started with Python)
Claude Code 101
Gemini Kickstart Workshop

Dharma A

AI Product Engineer | Mechatronics (UG)
Maharashtra, India

Summary

I'm a Mechatronics Engineering student working toward becoming an AI Product Engineer. Currently focused on: AI-assisted product development (I build with Claude Code, Codex) Vibe coding, turning ideas into working products fast, without waiting to master every layer of the stack first Automation using LLMs Working on: → DStack, an AI workflow system that turns a rough product idea into a structured build pipeline → VOLTIC, an AI layer for machine and sensor data (pitched at Eureka 2026, IIT Bombay) → Cofounder, startup-specific web dev Mechatronics sits at the intersection of hardware, electronics, and software, which means I'm learning to think in real systems, not just code. That's the edge I'm betting on: most people building "AI products" only understand the software side. I'm building toward understanding both the machines and the intelligence layered on top of them. Goal: to build products that reduce dev time from days to hours, and to get good enough at both sides (hardware + AI) that most people building AI products today won't be able to. Betting on being early to this intersection.

Experience

Innovation and Startup Cell

10 months

Web Design & Development Head

May 2026 - Present (4 months)

Ratnagiri

Designed and built the complete full-stack website for the Innovation & Startup Cell, including frontend, backend, responsive UI, and core website functionality.

Currently leading web design and development for the cell, managing website updates, digital presence, and technical support for events, programs, and startup-related activities.

Technical Team - Member

November 2025 - May 2026 (7 months)

Ratnagiri

Supported ISC's website, digital systems, and event tech.

Inovexlspgcoer

Member

August 2026 - Present (1 month)

Ratnagiri

Member of Innovex, our college's Entrepreneurship Cell, built and run as part of NEC (National Entrepreneurship Challenge) - a national program guiding colleges to develop a functioning E-Cell through structured tasks and activities.

Team Gladiator

Powertrain Team - Leader

November 2025 - Present (10 months)

Ratnagiri

Leading the powertrain team for Team Gladiator's ATVC project. Also building and maintaining the team's website - currently in progress.

Mechatronics Students Association LSPGCOER

Design Team - Member

September 2025 - Present (1 year)

Ratnagiri

Creating clean, engaging visuals for events, social media, and student activities while supporting the team with creative design ideas and consistent branding.

Jawahar Navodaya Vidyalaya - JNV

School Captain

June 2022 - April 2023 (11 months)

Sangli

Led student activities, coordinated with teachers and students, managed school events, and represented the student body

Education

Government College of Engineering

Bachelor of Technology - BTech, Mechatronics, Robotics, and Automation Engineering · (September 2025)

Jawahar Navodaya Vidyalaya - JNV

· (July 2017 - March 2024)
